Nancy,

I am forwarding an email from Mr. Dan Shepherd with National Park Service. Please respond to the questions mentioned in his email.

Thanks,
Gi-Dong

Subject: Fw: PNM San Juan Generating Bart Modeling

Gi-Dong,

As a follow-up to our receipt of the PSNM San Juan BART Analysis and our phone conversation today, here is an initial list of the information i need to continue my review:

- an explanation of how the 0.07 lb/mmBtu NOx target rate was chosen for SCR, and why it should be higher than the rate proposed by Desert Rock tables 8-8 thru 8-21 in an Excel-compatible format
- Appendix C SCR cost tables in an Excel-compatible format

I am out of the office until July, and your July 9 comment deadline is very tight--i will let you know when i return if we will need more time or information.

Guys

I sent you a hard copy of the modeling report last week. I wonder if you received it. We have to submit our comments to PNM by July 9th. Please send me an acknowledgement that you received the report. Also, send me your comments as soon as you can.

Note: I will be out of office from tomorrow till July 2nd. During my absence feel free to contact Gi Dong at 505 955 8023.

Thank you.

Sufi Mustafa
